

# SMART Portals

An engaging mobile intranet and digital workspace collaboration solution. A pre-built digital workspace that improves employee communication and collaboration, at a fraction of the cost of traditional built-from-scratch intranets. With the flexibility to be designed with the user in mind and with your corporate brand.

All future proofed as based on Microsoft's new modern framework for SharePoint.

# SMART Portals

Spanish Point design and build SMART Portals that enable organisations to create a sustainable workforce with high levels of talent retention and productivity, by empowering their employees. See our [SMART Portals](#) video.

Spanish Point has both a proven SMART Portal template and a design methodology that ensures a successful outcome. The methodology leverages Microsoft best practice, global research and our own experience with customers across commercial and public sector organisations.

The SMART Portal template includes:

<b>News Aggregation</b> Publish modern news articles with rich content, in-built alerts and social capabilities such as likes and comments.	<b>Quick &amp; Easy Page Creation</b> Easily create empty pages or ones based on previous pages. Pages use SharePoint's modern framework, which lets you focus on the content.	<b>Event Aggregation</b> Publish upcoming internal and external events and training from multiple departments and various topic areas.
<b>Q&amp;A Bot</b> Digitise your employee handbook and company policy & procedures, and train your Bot for your employee FAQs.	<b>Enterprise Social</b> Drive employee engagement, promote communication, boost brand influence and build loyalty in your workforce to help nurture and retain your best talent.	<b>Search</b> Typically our customers are not lacking in the information they need they just can't always find it. Finding the information you want is easy and fast.
<b>Quick Links</b> Navigate quickly to promoted content via the home page quick links. Allow users to choose their own links most relevant to them.	<b>Use Your Branding</b> Use your branding, choose your look-and-feel header, footer etc.	<b>Content Intelligence</b> Just like Netflix or Amazon suggest the film or book you may be interested in, your Intranet can suggest content to you that you don't yet know exists.
<b>Mobility</b> Increase your Intranet usage by more than 50% with the responsive design for mobile devices, so your employees can access the information whilst travelling etc.	<b>People Finder</b> Search co-workers quickly, see where they are in the organisational structure, what documents that are working on, or even just what they look like!	<b>Surveys</b> Publish and analyse quick surveys, get your employees feedback, make them feel valued, and allow more effective changes to be made.

## Ready to be SMART?

SMART Portal assessments for your organisation can be arranged by calling on 01 652 2000, or send an email to [sales@spanishpoint.ie](mailto:sales@spanishpoint.ie)
